

Southwest Georgia Public Health District
Serving Baker, Calhoun, Colquitt, Decatur, Dougherty, Early, Grady, Lee, Mitchell, Miller, Seminole, Terrell, Thomas
and Worth counties

Public Health Liaison Program

Liaisons serve as a link between public health and the medical care community. Liaisons enhance disease surveillance, promote the use of public health programs and resources associated with emergency preparedness, and actively promote communication among public health and the broad provider communities.

What can we do for you???

- Notifiable Disease Trainings
 - Electronic Reporting Training
- 
- Reporting Requirement Updates
 - Provide available educational resources
 - Serve as a point of contact with local public health

Please call to set up an appointment today!
